3		X		I find it frustrating that not all courses are offered at all locations. I was very interested in the nursing field but have been unable to get the prerequisite classes that are required to apply to the program due to the location that I live in. Due to this I settled for a different degree because I had so many credits and needed to do something with them.	Aug 21, 2012 4:02 AM
4			X	<p>While I think the instructors and staff are very committed and of high quality overall, I think the "fluff" classes (in particular the required INT classes) are a waste of student time and money.</p> <p>Another complaint I have heard repeatedly, and had myself, was the difficulty in getting to needed classes while working at the mines. A significant number of students work at the mines and don't get to town until after 6:30pm due to the commute. Many required classes are simply not available to us as a result. I'd suggest later class times and/or weekends for more classes. Speaking for myself, I would have graduated a full year earlier if I had not had to work so hard to fit class schedules around work schedules.</p>	Aug 21, 2012 7:45 AM
5		X		The only thing I can suggest is not allowing professors to require books they have written unless they cost under 40 or so dollars. I think it is extremely unfair that the professors require books they have written themselves because usually they must be bought from the bookstore, which is significantly more expensive than if it could be found online and rented, and they make money of thier book sells I beleive. Not only that, but I feel we get a biased perspective on the subject. When the textbook is more general, there is of course still the teachers own personal feeling that bias the teaching but there is also a textbook written by another with different feelings on the subject so students are introduced to more than one way of seeing the subject. I really loved the atomosphere at GBC, the staff was so wonderful and the teachers likewise. Even though I have been gone for a while, I still come back and visit, I consider many at GBC part of my family and I would never have chosen a different college. I encourage all my younger friends to attend GBC.	Aug 21, 2012 12:37 PM

8		X		GBC is a wonderful community college. I enrolled straight out of high school, and GBC has given me a top-quality education. The atmosphere is very conducive to learning, and I feel that I am part of a community that is fully supporting my decision for higher education. The only drawback is that I had to take nearly two years of prerequisite classes to get into the nursing program...so essentially it will have taken me four years to get my Associate of Science in Nursing degree. However, I do not regret my decision to come here, and I suggest GBC to everyone I talk to regarding a college choice.	Aug 22, 2012 3:02 PM
9		X		I miss my schooling at GBC. I had a wonderful time learning so much and I wish I could figure out what I would like to do for a career and take the appropriate educational journey again through GBC. I only earned my associates degree, but it was not specified to a certain career or job; so I am now working at a job that I like, but would not have chose for myself. Thanks so much for all the learning oppurnities I have recieved through my education at GBC.	Aug 23, 2012 9:53 AM
10			X	GBC is wonderful. I love the special attention you receive here. I am finding I am just another fish in the sea at the University, which makes me strive to make myself be recognized amongst my peers and professors. 18		X		The distance education fits my lifestyle but having classes oriented towards the PLSS states makes the surveying curriculum less appropriate for me and the lack of the program achieving ABET accreditation hurts the ability of students to get licensed in some states. Overall the education is great but if I had to do over I would seek a similar program in a colonial state.	Sep 18, 2012 9:01 AM

22		X		Nursing student TMCC Didn't attend graduation ceremony because my experience when I received a certificate was poor. The ceremony was focused on financial donors and not graduates. Boring and disappointing focus.	Sep 25, 2012 9:20 AM
23		X		Regular one-one one advising was always helpful. However, I was once transferred to <deleted> when my advisor was out. It was an extremely unpleasant and degrading experience. Pat was always wonderful to work with. There were many issues with transcripts being sent on time to UNR. They never received my transcript with my degree posted as I requested. I had to have it sent again. Thanks.	Oct 2, 2012 12:01 PM

25		X		Advisor at Pahrump Center did not assist me or other students with valuable information. When trying to enroll in Bachelor's program- he refused to sign form for submission. Had to wait for other staff to return as he is not knowledgeable in requirements as an advisor and did not feel it was his signature needed. This is one example of many. *Dr. Tenney is great and was extremely helpful with advising me next step and classes. Other staff members at Pahrump Campus have been helpful and efficient. Some of the facilitators are under trained, but put in the effort to learn.	Oct 8, 2012 8:54 AM
